

Dear Committee on Children,

I am sending this email in show of my support for SB 622 allowing parents access to certain Department of Children and Families records. As parents of a selectively mute daughter Natalie who DCF took away from my husband Christopher Garret Jones on August 2, 2011, my husband and I were NEVER given all of our daughter's DCF records even though we requested them on several occasions. We complained to the DCF Ombudsman Office but got Absolutely no where. I went to Connecticut Children's Medical Center. 60 Hartland Street in East Hartford, Connecticut on June 12, 2013 to request our daughter's medical records and to this day have NEVER received them. Please refer to appellate case docket #35785 for further information.

I do plan on testifying to this information TODAY at the LOB room 1E at 1:30pm.

Angela Christine Jones
