

Dear Finance Committee,

As a citizen concerned about climate change, I am writing to ask you to eliminate the \$3.6 million exemption from the utility tax being handed out to a gas power plant. Governor Lamont has proposed eliminating this tax exemption in Section 8 of House Bill 5010, An act concerning revenue items to implement the Governor's budget. I am urging you to ensure that this tax exemption is removed from the state budget, as proposed by the Governor.

The science is clear that we must transition away from fossil fuels, Connecticut should not continue to subsidize fossil fuels and the destruction of our planet.

Thank you for your attention to this matter.

Sincerely,

Jennifer Hochberg Toller
