Support for Music Haven: CT Bill 5005

I became aware of the activities of Music Haven only last year, and I was immediately impressed by the very significant impact they were having on a section of our community that clearly needs support. Given everything I have heard and seen, it is inconceivable to me that this organization should be singled out for *exclusion* from any source of funding, and I can only guess that there must have been some misunderstanding that might have led to such a proposal. All I can do is to urge everyone concerned to examine carefully the very effective impact that this organization has been having over the last few years and to do everything possible to support their work in the future.

Yours truly,

Werner P. Wolf
R. J. Wean Professor Emeritus
Yale University
