

My name is Joy Ozuem, Mom to Ajunide Adebarede.

The early start programme has been a lot of help to my family because it is really helped in the development of my child, also the teachers are just too wonderful, MS Laurie, MS Jenn, and MS Hilda. They work with an excellent spirit, accommodating, good welcome smile and great team work. When my baby first started, he was having little issues with communicating with others but now his much more better in speech, attitude like ever going. My baby will always wake me up in the morning for school. He loves his school and am really happy to see the excitement in him whenever he coming in the morning.

For my family and I we love the programme and we would want every one to keep up the good work and excellent spirit. Thanks
