my daughter Thalia loves it at WHCDC. You can see her explorative nature come out everytime she enters the classroom. All of the different colors, shapes and sounds that decorate her surroundings really stimulate her mind and I really appreciate that about her classroom. I also love seeing how much Thalia loves to interact with her friends. I know that Ms. Laurie, Ms. Jenn and Ms. Hilda are working hard daily to contribute to Thalia's development during these crucial first years!
