

---

Hello My name is Ms. Sandra Wade of Seymour, Ct. I am sending this message in hopes it may find a listening ear for the concerns of those

Living with this current infection and being supported by the HOPWA Program. These sources cover the expenses of the expensive medication along with the Doctor visits. We balance our care and the assessments needed for us to have a productive and balanced physical and mental health. Much encouragement is necessary for us to continue this uphill battle.

There are many who have been infected thru spouses and partners, not all are drug users or in compromising relationships. Some have gone thru life feeling they would find love and happiness for the thereafter. Life has a way of making you run this race and foregoing the unexpected.

I personally stumbled on Independence Northwest in Naugatuck, Ct many years ago and I cannot begin to tell you the impact they have had on my life. The feeling of hope and assurance there will be a brighter side. Much like my hope in the Lord Jesus Christ. They work with many with Disabilities and have a fantastic frame of mind.

No matter the Political party, we need to work together for society. The thought process should always be a positive one and stop the name calling and hate. It feels much like a troubled family with no substance. I like to think of myself as being respectful and leaving an impresion.

Thank you for your time!

Sincerely,

Ms. Sandra Wade. 2/19/2020
