

**FACT:**

Home and Community-Based Services  
**SAVED** the State of Connecticut Budget

**\$398.6-MILLION**  
**IN STATE FISCAL YEAR 2018**

And a total of over \$2.1 Billion in the last 13 state fiscal years (2006 to 2018)

**THE NEED FOR HOME CARE IS EXPLODING.**

Nearly **19,200** enrollees in the CT Home Care Program for Elders (CHCPE) and Waiver Services are receiving home and community-based services.

**HOME HEALTH EXPENSES DECREASE = COST EFFECTIVE REBALANCING.**

As CT rebalances to more Home and Community-Based Services, Licensed Home Health costs decrease as non-medical home care costs increase.

**MORE AGING IN PLACE = MORE STATE SAVINGS.**

The most recent 3 years (2016–2018) cumulative savings was \$1.1 Billion which exceeded the prior **10 years** savings of \$1.03 Billion.

**THE HOME CARE WORKFORCE IS AN ECONOMIC ENGINE.**

Over 19,000 workers are employed by licensed home health and non-medical home care agencies. A number that needs to continually grow to meet the demand of rebalancing in CT.

**TALK WITH US ABOUT THE POWER THAT HOME CARE HOLDS FOR THE STATE'S PEOPLE AND BUDGET.**
