

Dear Environment Committee:

I am a REALTOR writing to OPPOSE section 3 of HB 6441 which permits municipalities to implement a BRAND NEW SALES TAX on Connecticut real estate buyers. This new sales tax on home buyers starts at 0.5% for home prices that exceed \$150,000 and goes as high as 1.5% based on the sales price of the home.

\* There is an affordable housing problem in Connecticut now. Adding a new sales tax on buyers will put home purchases even further out of reach of our first-time buyers and workforce.

\* Buyers who cannot afford this new tax will try to add it to their mortgage and may not be able to. That action could put the entire home purchase out of reach for them. This new burden causes greatest harm to those with limited funds.

\* Real estate owners already have many high costs including property taxes. Shoreline buyers will experience high flood insurance premiums. Do NOT add to home purchase costs.

\* Connecticut needs more inventory including sellers who will move up or down in their own communities. People are less likely to move with this new tax.

Real estate is an important factor in the economy. Please do not harm real estate with this new tax. Any municipality that wishes to purchase/maintain open space or invest in climate initiatives can already fund those through their own municipal processes. Placing the entire burden on those purchasing homes in those municipalities is unfair.

Please oppose this new SALES TAX on home buyers.

**HB-06441 CT Real Estate Agents - 2,300 Signed**
