

I write in support of HB 6441: An Act Concerning Climate Change Adaptation.

This legislation includes several proposals which provide municipalities with funding tools to better respond to the impacts of climate change. Section 3 of the bill enables a Municipal Funding Option -- giving communities the opportunity to establish a limited buyer's conveyance fee program to generate revenue for land stewardship, climate adaptation, resilience, and other local environmental projects including urban forestry, invasive species control, and tree planting.

We're all in this together. We need to take care of our environment and fund it collectively since we all share it.

Thank you for your time and considering my opinion.

Respectfully,

William A. Nygren, Jr.
