OFA Fiscal Note

State Impact: None

Municipal Impact: None

Explanation

There is no anticipated cost to the state associated with the Department of Energy and Environmental Protection establishing or identifying a take-back program for municipal sources of perfluoroalkyl and polyfluoroalkyl substances (PFAS), as this program was already established using \$2 million of General Obligation (GO) bond funds authorized in FY 20. Funds were fully allocated for this purpose in July 2020. No change to debt service is anticipated as a result of the bill, as all authorized bonds have already been made available to the program.

Senate "A" replaces the underlying bill with the provisions above, which has no fiscal impact.
