To the GAE committee,

I strongly oppose both HB 6325 and HB 5540.

The first HB 6325 is counter productive. CT already has among the most restrictive voting regulations in the country. We need to make voting more accessible for older people, working people, college students, people with out access to public transportation, people with physically compromising situations etc.

The second HB 5540 infringes on the legal rights of the Secretary of State and encumbers that person's ability to do the they were elected to do.

Both are transparently about voter suppression and an assault on our democracy.

Claire Matthews, Essex,
