

To Westport Democratic Committee

I only this morning heard that the Republicans have already formed a committee to make it more difficult to vote in the next election. I don't know any particulars as it was a short news item but the purpose is to get Republicans out to vote and to prepare a list of items to make it more difficult to participate in the election process. When I read of your hearing to SUPPORT EARLY VOTING AND ABSENTEE VOTING I FEEL THAT THIS IS a proposal the Republicans would try to defeat. Let's follow the direction this proposal is taking. I am a registered Democrat.
