

As a 35 year old resident of Connecticut, who has lived here his whole life and has no plans to move, I'm asking you to support HJ58 to amend the CT constitution to allow no-excuse absentee voting, and to support HJ59 to amend the CT constitution to allow early voting. These amendments will make voting easier and more accessible to CT residents. The more people that vote should mean more elected officials that accurately portray their constituent's ideals. Voting and having the ability to vote has been an integral part of our country's democracy. People have fought and died for this right. Fortunately their fight was not in vain and over time voting became more accessible to more people. However, having the right to vote doesn't mean as much if you're not able to cast a vote. Our laws are frequently slow to react to the social progression of our country. That is why now is the time to continue with this forward progression by supporting these amendments.

Thank you,
