

After following the elections it is proof enough for me that the only way to have an honest election in the USA is to have voter proof of ID.

SIGNED BALLOT not just the envelope IN EVERY state.

All ballots in and counted on Election Day.

In some states voting deposit boxes got carried away. No honesty there.

So I am against voting mail box type casting of votes.

You need an ID for many things and voting day ID or ID match early ballot on REQUEST should be mandatory.

Let's have honest elections for the sake of every citizen.
