

I am urging you to vote for both of these items. As a senior citizen no-excuse absentee voting is a real help. Especially last year and who knows when life will be back to normal. It was nice to be able to drop it off at the outside box at town hall. All voters should be mailed a ballot without having to ask for one. Many elderly do not have a computer. That is sometimes forgotten.

Early voting for at least a week would help a lot of people too. People have to work on a Tuesday and cannot always get time off to vote. This is a hold-over from the 1800's when farmers were done with their harvest and had time. We are no longer all farmers.
