

As the record number of votes cast in last November's elections so clearly demonstrated, American citizens of all political persuasions want to vote. Any act of local, state, or Federal governments that enfranchises voters is to be supported. Opposition to such actions based on fears of "fraud" are contradicted by decades of absentee balloting, not to mention the November 2020 election, which was the most scrutinized election in history. Opposition to such actions because of party ideology or "loyalty" is DISLOYAL to the United States of America and our fragile democracy. Vote ye for these bills.
