

To Govt Admin and Elections Hearing committee on Elections:  
I oppose the mass mailing of absentee ballot applications and  
oppose early voting. It is ripe for fraud. We need signature  
verification, Audits, and use of photo id.

The early voting constitutional amendment - in particular that it is  
open ended with no time frame, removes the limitations from the  
constitution itself, and leaves many unanswered questions about  
how it would work on a municipal level.

After Covid year, there should be no reason not to get out and  
vote. Anyone with physical disabilities, or the elderly, have had no  
problem in the past requesting an absentee ballot on their own. It  
is not a difficult issue. and does not suppress the vote.

thank you,  
Julie Clay
