

Dear Sirs/Madams,

I am writing in support for Early Voting (HJ 59) and No Excuse Absentee Voting (HJ 58.)

I believe that voting is the most precious of American rights. It is fundamental to our republican democracy. As such, citizens should be encouraged to participate in the process. For too many, one day allocated to voting is not enough. Both early voting and no excuse voting absentee voting would allow families to vote as they are able. No one should be denied the ability to vote because they cannot get to a polling place at a specific time.

Please support Early Voting (HJ 59) and No Excuse Absentee Voting (HJ 58.)

Regards,
