

In a representative democracy, it is important that everyone have a voice. This is not possible if everyone is expected to vote on a certain day, during certain hours. The present system disenfranchises those whose jobs or home and family responsibilities, or illness, disability or frailty does not allow them to get out on that day during those hours. I therefore stand behind the movement to ensure that all Connecticut residents can vote by absentee valid on a permanent basis.

Thank you,

Barbara D'Ambruoso
