

Dear Committee Members and Chair:

Thank you for taking this issue so seriously and holding hearings. I am an advocate of allowing early voting and no excuse absentee voting. I have served as an Election Official, Moderator, for the past 30 years and I have seen people in all conditions make the effort to vote. However, I do think that many more people would vote if they had the opportunity to do so more conveniently during extended early voting or by mail. I think we need to change the CT Constitution to allow this. It is part of the future of our country and a forward look at how we can express our vote in the 21st century.

Thank you.
