

Hello - I hope you are all safe and well. My name is Therese Eke, and I am a voter in Milford, CT.

Passing HJ 58 and HJ 59 is so important to me precisely because there are so many folks who may not be well, or safe, or able to cast a ballot on one day.

We need to make voting as easy and accessible as possible - democracy is about including all the people, not just some of them.

Do the right thing - make democracy work for everyone - every voice and every vote deserves to be heard and counted. Thank you, Therese Eke
