

Elected Officials,

Given the fact that there has always been and always will be a certain degree of fraud, cheating, and corruption in our elections, why would you push and open the door for more? The act of voting and having your ballot truly count is what defines this country! We need to fight to stop ANY corruption!

With close to half of our country challenging the integrity and transparency of our past election, this idea will only further destroy voting legitimacy. Unless there are extenuating circumstances, and truly legitimate reasons for an absentee ballot, ALL voting MUST be returned to IN-PERSON voting with PROPER ID!! It is actually insulting to most Americans that elected officials think mail-in voting is not corrupted.

Connecticut residents are fleeing this state because of the incompetent actions of so many of our elected officials. Please do the right thing and flush the corruption out of this great state.

Therefore, I strongly oppose adding ANY Expanded Access to Absentee Ballots and Early Voting. Please show us that you take our vote seriously. Thank you.

Respectfully,

**David Englert**
