

## **Make Greater Voter Access in CT Permanent**

I am old enough to remember when voting was considered to be a patriotic duty. I was thrilled to have an option for mail in voting during the pandemic. This increased voter access to the ballot box must continue. Connecticut is far, far behind the rest of the country and the world in this regard.

Our society has changed. We work long hours. We have long commutes. We have to contend with childcare and eldercare. Throw in an occasional blizzard, power outage, or pandemic, and continuing to have access to more voting methods (besides in person on Election Day) just **MAKES SENSE!**

I urge the CGA to take permanent action to increase our access to the polls in as many ways as possible. We deserve nothing less.

Susan Fogliano, Old Lyme
