

Dear Representatives of Connecticut

I am opposed to this proposal. At the same time, I am very surprised that someone would make a proposal like this.

Because of what happened in the 2020 presidential election, what is the purpose of such a proposal?

Individual on-site voting is designed of the sanctity, authenticity, fairness and reliability of voting. It prevents the opportunity of cheating to the greatest extent and possibility. This has been proven by history. The disputes and chaos brought by the 2020 election also prove that "ALLOW NO-EXCUSE ABSENTEE VOTING" does not conform to the current social and political status quo in the United States. The same does not apply to Connecticut.

Individual voting is the basic manifestation of democracy. The real purpose of voting is not to elect which party, but to reflect the will of the voters. And this will must be expressed truthfully and reliably. It requires the necessary procedures to ensure and guarantee. From historical experience to our current society, individual on-site voting is currently the most acceptable, reliable and fair method in society. We do not need various related proposals to weaken the reliability, authenticity and

fairness of the election. We can accept some people applying for ABSENT VOTING for particular special reasons, such as service personal in oversea and so on, but not others who have "NO-Excuse". According to the controversies and conflicts we have seen in the 2020 election, the Connecticut legislature does not necessarily have to discuss such a proposal. They cannot be too partisan or politicized on this issue. The purpose is to be worthy of history, but also worthy of today's society.

The best;

Yifeng Gao
