

I would like to state for the record that I support HJ 58, to amend the CT constitution to allow no-excuse absentee voting, and HJ 59 to amend the CT constitution to allow no-excuse early voting.

The way elections are carried out in this country, too many people have trouble getting to the polls on election day. People have to work, take care of family, end up waiting in long lines, or have difficulty finding transportation. We owe it to citizens to make it easier to vote. Every eligible voter should be able to cast their vote, and allowing early voting and absentee voting makes that possible.
