

As a follow up to message below, I would like to be clear and I am asking the committee to vote no to this proposed bill.

I am very concerned with this proposed bill for no excuse mail in voting. This can wreak havoc with out election system and has greater potential to increase voting irregularities. Signatures must be verified, chain of custody must be proven. Voting is a privilege in our country and should be treated with the respect that it deserves by the citizens who live in this state.
