

Please make absentee ballot voting easy for all. We voted absentee ballot in November 2020 because of the Coronavirus. I'm 81, and Karen is 77, and we're being really careful. The virus is not going away soon, and there's a lot we don't know about the variants, the length of vaccine protection, and the potential for recurrence. We'll very likely want to vote absentee ballot again this fall. Please make absentee ballot voting easy for all.
