

Facebook when faced with the possibility of having their employees vote via mail in balloting for a company wide issue, refused to let that happen because they said that it was a method whereby they could not be confident that fraud would not occur!

Don't be stupid, ignorant or a proponent of very possible fraud. Do not pass this bill allowing for mail in balloting. BIG mistake! Make it harder, not easier to vote! Picture ID is called for when voting! Make folks go to the poles to vote. This is not soft serve ice cream we are ordering online, this is VOTING..THE GREAT AMERICAN PRIVILEGE!!

Sincerely,

Mary Howard
