

Dear Government Administration and Elections Committee,

I would very much like to see Connecticut make changes in the state constitution to allow early voting and no-excuse absentee voting in the future. While I love going to our local polling place on Election Day and being part of such a sacred right, I would like to know that if I wanted to vote absentee and/or early, I could do it. My husband and I will turn 79 this year, and there may come a time when we want the ability to vote absentee just for the convenience of it.

Thank you for allowing us to express our feelings about this.

Susan and Morrow Jones
Canton
