

Dear Senator Rob Sampson and to the legislature overseeing Elections.

The Union I belong to, CSEA council 400 retiree's is supporting this no-excuse balloting. I strongly disagree with this and feel that In-Person and Verified Absentee ballots are more than sufficient and secure way to Vote in our State. As we have witnessed from the last election this idea of mail-in ballots from anyone without verifications creates an un-secure form of voting which is un-serving and totally unfair to all voters who have a legal right to vote. Please do not support this. I know the Unions try to strongly suggest to the members what and who to vote for but the Unions are only looking out for their own interest, not really the members legal rights to vote and insure that any and all illegal votes never get counted in any election moving forward.
Thank you

Sincerely,

Evan Kasack
