Re: HJ 58 Absentee Ballots

This is to request you do not allow this amendment to be approved. No matter who a person supported this last election, the chaos and mistrust demonstrated in last year's election proved that any no-excuse absentee voting is a huge mistake and unnecessary. CT has had a reliable protocol for absentee voting that should not be tampered with.

We saw in states including but not limited to Pennsylvania and Georgia the distrust and viability for tampering such changes incurred. I hope you will vote on this amendment in a moral and ethical manner.

Sincerely, Judi Klein
