RE: H.J. No. 58

February 19, 2021

To the legislature:

I stand against this amendment.

The normal procedure for voting should remain in person on election day, on a paper ballot.

Acceptable exceptions have been provided for absence from the city or town, sickness or disability and of course religious reasons.

Amending the system to accommodate voters that just choose to stay home is unacceptable and will result in untimely election results and will further reduce the integrity of the election process.

Please reject this amendment.

Regards,

John Koch
