

For Testimony:

Regarding HJ 58, 59, 6464 and SB 901

These are nothing but loopholes to prevent accurate and fair elections.

The covid excuses can be eliminated. We have always had the ability to file for absentee ballots. Those are more valuable because they can be verified.

The mass distribution of "mail-in" ballots leads to harvesting and abuses. We cannot verify those and we need to eliminate such loopholes.

About early voting, it is my opinion that we do not need to extend those voting days. Why would a person not be able to vote on election day? If they know they will not be available that day, they can apply for a legal absentee ballot.

Our elections need to be taken seriously. We are a Free Society because we are a land of laws. Our Constitution (both State and Federal) call for people to be able to believe in the rule of law and the veracity of our elections. Without that we are nothing.

Please take this email to the committee on 2/22/21 and let them know how this resident thinks.
