Respectfully I would like to add my testimony to HJ 58 and HJ 59. In our history as a country we have benefited greatly when we expand suffrage. Some of our darkest moments come when the right to vote has been suppressed.

These two bills to amend the Ct Constitution to allow no-excuse absentee voting and to allow early voting should not only be considered but should be passed.

Both have my full support. More participation, more opportunities strengthen our democracy. Let's get this done.
