

To my Elected Officials,

The ability to vote and have your ballot count is what defines our country. It is the greatest of our rights to determine our elected officials.

But, with so many people in our country challenging this past election and questioning the transparency of the process, this is the wrong time to throw our voting legitimacy into further turmoil.

I support greater transparency and oversight and would hope that our next election would be the most valid in our state's history.

I oppose adding Expanded Access to Absentee Ballots and Early Voting. This is the time to show every voter that there is no fraud in our state elections....not to open the door to more questions and vitriol about the process.

Thank you for your time,
Megan Presbrey
Ridgefield, CT
