

I write to make my concerns as a citizen of CT known.

- I am against these bills under consideration: H.J. No 58, H.J. No 59, S.B. No 901 and H.B. No 6464.
- I am very concerned with voter integrity in this state. We must get back to:
  - 1 day voting
  - In Person voting
  - Paper ballots
- I am ok with absentee ballots that are requested for elderly, and military personnel.
- I believe we should enforce a voter id and ensure only US citizens are voting.
- I am not confident that our major cities are providing adequate election monitoring and transparency.
- I feel that we do not have fair and free elections in CT.

I would imagine most Americans believe that fair and free elections are the standard in America. After watching what happened in the last presidential election, I no longer believe that.

I believe election law changes made in the name of the COVID pandemic should be eliminated. I am sure most citizens are capable of voting in person in a safe manner.
