

It is time for the CT Legislature to pass these bills. All citizens will benefit from their passage. Our youngest voters frequently attend schools away from home, while others commute combining a job and classes. Many people must work at two jobs in order to maintain family and financial obligations. As a senior voter, I can attest to the value these voting options. The success of the 2020 election is proof that this is the direction that our state must follow. We will all benefit from the successful passage of these bills.

Respectfully,
Judith Solias
