

I'm writing to support HJ 58, No Excuse Absentee Voting (my previous email message re: early voting should have referenced HJ 59). I lived in WA for many years. Everyone voted by mail in every election and there have been no problems with that system. Access to voting is a key to a healthy democracy. Please extend no excuse absentee voting, that was available during the last election, to all elections going forward.

Thank you,

Mary Stevens
