

Hello,

I'm writing to say I strongly support the bills this session that would start the process of allowing early voting and no excuse absentee voting.

I'm sorry to say that CT is behind many, many other states in having such a restrictive voting system. Why wouldn't we want to make it as easy as possible for citizens to cast their ballots and participate in the democratic process? The record-breaking turnout last November when an exception was made to allow no excuse absentee voting showed what a great thing it could be to make it permanent.

Thank you.

Sincerely,

Melinda Tuhus
