

I am writing to support HJ58, which would amend our state constitution to allow no excuse absentee voting, and HJ 59, which would amend the constitution to allow early voting. Both of these measures would encourage greater participation in our democratic process and increase voter turnout in state and local elections. We should be removing barriers and making it easier for people to have access to vote. In other states where this is currently allowed there is little evidence of fraud or other illegal vote tampering.

These measures should be placed on the ballot for this fall's election to allow the people of Connecticut to decide the issue.
