

Dear Members of the GAE Committe:

I voted last year by Absentee Ballot. I found this a safe way to make sure my voice is counted regardless of pandemic or other situations. It was convenient to be able to use the drop box at the town hall. Also I support early voting

I urge you to follow the wishes of most people in Connecticut and vote the early voting and no excuse absentee voting out of committee. Connecticut will benefit from these voting reforms to allow more individuals to easily register their vote in any election.

Thank you for your attention to this important matter.
