---

I am a property owner who likes to keep my properties well kept, and address any concerns my tenants may have. My tenants all appreciate the fact that I screen prospective new tenants. My tenants tends to be long term tenants who enjoy a clean, safe, quiet, smoke free, drug free building. These bills , HB#6528, HB#6531, and SN#355, injure my ability to make a fair decision. Take SN#355 as example, that limits or blocks criminal records that are supposed to be public records of persons who made poor choices. It would be wrong to accept a child molester next door to a parent with child. There are many examples, and these bills will give bad tenants more power to destroy more people. Please do not allow these poor bills to pass. Thank You , Bill Abo
