

# Veterans' Affairs Committee JOINT FAVORABLE REPORT

**Bill No.:** HB-6482

AN ACT EXCLUDING FEDERAL VETERANS' BENEFITS FROM INCOME

**Title:** ELIGIBILITY FOR PUBLIC ASSISTANCE PROGRAMS.

**Vote Date:** 3/18/2021

**Vote Action:** Joint Favorable Substitute

**PH Date:** 2/23/2021

**File No.:** 240

***Disclaimer:** The following JOINT FAVORABLE Report is prepared for the benefit of the members of the General Assembly, solely for purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose.*

## **SPONSORS OF BILL:**

Veterans' Affairs Committee  
Sen. Kevin C. Kelly, 21st Dist.

## **REASONS FOR BILL:**

This bill requires the Department of Social Services to exclude all federal veterans' benefits from income when determining eligibility for public assistance programs. Currently, veterans who receive federal benefits administered by the US Department of Veterans Affairs are at risk of losing access to public assistance programs if those benefits push them above the income threshold, placing veterans in a precarious position regarding vital services.

\*\*\*Proposed Substitute Language: In lines 6, 39, 54, 80, 119, 159 and 174, after "benefits" insert "administered by the United States Department of Veterans Affairs". This additional language clarifies the source of the federal benefits being referenced in this bill.

## **RESPONSE FROM ADMINISTRATION/AGENCY:**

[David Seifel, Legislative & Regulations Analysis, Department of Social Services](#): In submitted testimony, DSS expressed opposition to this proposal, as it would result in increased eligibility, increased caseloads, and an increase in expenditures. While the Department appreciates the intent of this bill, the required funds for such increases are not in place nor are they included in the Governor's proposed budget.

## **NATURE AND SOURCES OF SUPPORT:**

[Rep. Kathleen McCarty, 38<sup>th</sup> Dist.](#) Representative McCarty offered written testimony in support of this bill, noting that DSS' practice of counting these benefits as income is

detrimental to the ability of veterans to access all services available. She closed by stating that "veterans who have given so much of themselves and who have served their country and community selflessly should be entitled to receive all veterans' benefits both federal and statewide without the fear of losing the highest quality of healthcare and personal choice."

[Eileen DeGaetano RN, Retired Geriatric Care Manager](#). Ms. DeGaetano offered written testimony in support of this bill, sharing the story of her father, a veteran whose state benefits were lost due to receiving federal veterans benefits. She further noted the potential savings to the overall system due to reducing elder abuse and neglect related to caregiver burnout and the economic loss to employers due to absenteeism. Finally, she stated that this bill "creates the opportunity to reduce the administrative burden, conflict and confusion that currently exists for Veterans as they seek help between State and Veterans systems."

**NATURE AND SOURCES OF OPPOSITION:**

None expressed
