

I am writing to you in strong support of Bill 5125 granting immunity from civil liability pursuant to health and safety guidelines during Covid -19.

As a board member of Greenfield Hunt, a small HOA in Fairfield, we were unable to open our outdoor community pool last summer and will not be able to open it this summer unless this Bill is passed due to liability concerns as our insurance does not cover this issue. The state guidelines at this point are geared at large, indoor pools that are part of sports complexes or large town recreation facilities. Our small, outdoor pool provides healthy recreation and swim exercise to our population and it is very important that we be able to open it this year without threat of personal liability to our individual board members as well as the Association. Thank you for addressing this important issue,

Sandra Berman
