

Members,

67 years ago a horrific murder in Hartford was solved and justice was served; except for one thing. A teenage girl, known as Patricia "Pidgie" D'Allessio (also a victim) who's evidence and testimony solved this crime; did not receive the reward due her.

This bill rights that wrong.

Please pass it swiftly so that not another day passes without complete justice being served.

Sincerely and with my thanks,

Debra St.Germain
