

Good afternoon

As a parent of a daughter in Music Haven, this is a respectful reminder to please be sure to give us our funding as previously promised! Music Haven proves beneficial to all of our children. Practicing their music gives them something positive to focus on, and a source of enjoyment, during the difficult times due to the pandemic and make them less depression from staying home and not doing any activity, and since my daughter was there she gain a lot of positive energy that helps her in the school and at home also.
