

18 February 2021

Dear Appropriations Committee:

Music Haven is one of the few arts organizations that has maintained its stability during the pandemic, providing artists, staff, and students and families with crucial services. This success means that the organization should be supported such that it can continue this critical work.

I trust that you'll restore the Music Haven funding to the budget. It is crucial that we maintain this network of safety for everyone involved.

Respectfully yours,
Annalisa Boerner
