

Dear Appropriations Committee,

I am writing to urge you to allocate significant state funds to Music Haven. This organization provides tangible opportunities, measurable learning and lifetime possibilities to New Haven students and their families. As you know, the program is designed for school children to receive musical instruction from world-class musicians through a safe, well-supervised program that runs during non-school hours. The community support for this is overwhelming! The benefits are immediate to the students, their families and the greater community.

Music Haven is a clear win-win for our state.

Thank you,
Patricia Chamberlain
Guilford
