

I have seen the work that Music Haven does first hand. The contribution that this group of extraordinary musicians makes to the lives of many children in our community is amazing. In this time of such stress and disruption to the lives of everyone and especially children what they are able to do is priceless. The Music Haven program not only provides young people with skill and fun but contributes to mental health wellness in a unique and powerful way. I urge you to support their work by providing funding. Thank you,
