

Public Hearing on:
H.B. 6439 An Act Concerning The State Budget For The Biennium Ending June Thirtieth, 2023,
And Making Appropriations Therefor.
Health Subcommittee
Tuesday, March 2, 10:00 am

Good afternoon Senator Osten, Representative Walker, Senator Miner, Representative France and distinguished members of the Appropriations Committee:

Lori Grandsire
DSO-SARAH Inc. Westbrook

I AM WRITING TO COMMENT ON H.B. 6439 An Act Concerning The State Budget For The Biennium Ending June Thirtieth, 2023, And Making Appropriations Therefor.

Community nonprofits provide essential services in every city and town in Connecticut, serving people in need and employing tens of thousands. They are what make Connecticut a great place to live and work.

I am here to respectfully **request that the legislature appropriate \$461 million over five years for community nonprofits**. Since 2007, community nonprofits have lost at least \$461 million in state funding that has not kept pace with inflation or adequately covered increased costs and demand for services over the last thirteen years. Please:

1. Commit to increasing funding by the full \$461 million, or 28%, by Fiscal Year 2026;
2. Appropriate \$128 million (a state net of \$67 million after federal reimbursement) in new funding for community nonprofits in Fiscal Year 2022, a 7% increase;
3. Index increases to inflation, to ensure that state funding will keep pace with increased costs in the future.
4. Hold nonprofits financially harmless from the impact of COVID-19.

The Covid-19 Pandemic has negatively affected me and my family in the following ways:

- Not being able to attend program in person from March-July
- Lack of socialization with family, friends, and staff
- Not having an aide in my home to assist me with ADL's
- My mom had to miss work
- No enrichment activities available
- No Community-Based Activities

The COVID-19 pandemic exacerbated the impact of inadequate funding for nonprofit services and brought unanticipated and unbudgeted costs and operational challenges for many community nonprofits, such as:

- Providing hazard pay for essential workers on the front lines with a higher risk of exposure;
- Procuring expensive and hard to find Personal Protective Equipment (PPE) and cleaning supplies;
- Creating telehealth services seemingly overnight, and purchasing necessary computers, cybersecurity, online meeting platforms and training for both staff and people receiving services.
- Many community nonprofits never closed their doors even as the pandemic worsened.
